We offer 360 degree spectacular views at one of the highest points of Laikipia.

The Sanctuary at Ol Lentille is located in a private conservation area of over 40,000 acres of stunning hills and valleys – this is three times the size of Manhattan all to yourself! In our area we have elephant, leopard, wild dog, cheetah, hyena, zebra and greater kudu to name a few. Elephant numbers have really grown in recent years and some months several thousand sightings are recorded. There are six packs of wild dog (averaging twenty) that traverse the area around the lodge and some months there are between 10 - 20 wild dog sightings in this area.

SIX REASONS TO STAY AT OL LENTILLE

1

VARIED ACTIVITIES

Laikipia is all about the variety of experiences it can offer, it's not just about game drives and the stunning landscape! You can see real community projects and culture, experience camel trekking, walking safaris, quad biking and mountain biking and wonderful spa treatments to name just some of what we offer. An adventurers' paradise or just do as little as you like!

3

EXCLUSIVITY

You won't see another car from start to finish, you have our private and protected 40,000 acre conservation area which is over three times the size of Manhattan all to yourself! The spectacular landscapes of Laikipia will take your breath away and all your activities are private.

5

IT'S A HOLIDAY

Staying here is importantly a "holiday" and there is downtime to enjoy the numerous unique and special activities that the lodge and Laikipia offer. Your stay is not the normal safari format of game drives every morning and evening and you don't have the early starts like so many other lodges and therefore leave refreshed and relaxed!

2

GAME VIEWING

As guests often combine the Mara with Laikipia, where they have been in a car the whole time we often don't take guests in the vehicles and prefer to do walks in the area to get up close to all the action! We have an incredible number of elephant, and wild dog sightings are very regular. Guided by Samburu and Maasai warriors this is a very special journey into their ancient lands.

4

STUNNING VILLAS

Our four villas are spectacular and regarded as some of the best accommodation in Kenya. All differently and uniquely furnished and great for couples, friends and families this is much more than a home away from home!

6

HAVING FUN, DOING GOOD

This is our motto, your stay is directly benefitting the local community which is a completely unique experience. This is a responsible choice and a very rewarding one as tourism is actively protecting the area for future generations and improving their livelihood.

IMPORTANT INFORMATION

DINING AT OL LENTILLE

We are renowned for our excellent cuisine and you will eat in numerous stunning locations throughout your stay with us. You eat what you want when you want it! Guests have private dining experiences from start to finish to ensure maximum exclusivity. All meals and house wines / drinks are included in the rates.

RESPONSIBLE TOURISM

Environment

- We take our responsibility to the environment very seriously. 90% of the water we use is stored rainwater. We not extract water from any rivers, nor do we discharge any effluent to any water courses. Guests are given the option to be water-economisers.
- All our electricity is solar generated and hot water is solar heated.
- We manage the 40,000 conservation area for vegetation. Since its creation, the water table has risen and long dead springs have come back to life. We can also demonstrate with high probability that we have caused a rise in annual rainfall.

HOW TO GET THERE

With a private airstrip only 15 minutes away and easy access from Nairobi to Nanyuki or Loisaba with numerous scheduled flights, this remote wilderness is easily accessible. Road transfers from Nanyuki or Loisaba are only 400 USD return for the vehicle and it's a stunning 1.5 hour drive.

WEATHER

We have 340 sunny days each year, and being on the Equator there is almost no seasonal variation. Most days are warm and dry with a temperature of 24°C at 10am and 28°C at 4pm. Humidity rarely rises above 25%. Evenings and nights can be cool – as low as 15 and in the rainy seasons 12.

Our rainy seasons are typically mid-April to end May, and mid October to mid December. Almost all our rain falls at night, and rarely interferes with guest activities. The transformation of the landscape from blond to green is a twice yearly marvel, and the crystal clarity of the air a sight to behold.

People

- Since the lodge opened in 2007 our trust (www.ol-lentilletrust.org) has raised over \$5 million which has built four schools and numerous classrooms at eight other schools, a hospital, and water and sanitation projects. Tourism is helping and improving the lives of the local communities – each stay helps protect and conserve the area and helps the local people as money goes directly to them. Guest donations are very much welcomed but not sought.

WHAT TO BRING

- For daytime wear light summer clothes are best, although do bring a jumper for the evenings.
- It's best to bring neutral coloured clothes for the game drives.
- Do please bring comfortable walking shoes or boots.
- Swimwear, sun block, insect repellent, sun hat and sunglasses are recommended.
- Please bring a good camera to capture all these special experiences!

FORMS OF PAYMENT

Payment by online or wire transfer, bankers cheque, or credit cards including American Express.

COMMUNICATION

Complementary WIFI is available in the reception area of the lodge and the lodge has mobile phone reception.
